

## RECOMMENDATION QUOTES FOR “YOUR FINANCIAL COACH”

“Preparation is a vital part of sporting achievement, as it is in securing a successful career after sport. At the RPA we work with elite rugby players to plan for life beyond the Game, and I foresee that The Financial Coach will become a core part of that process.”

Vic Luck, Chair of the Management Board at the Rugby Players Association (RPA) and former Managing Partner, EMEA, PricewaterhouseCoopers Consulting

“I can happily recommend this book to any young person and especially sports persons as an excellent guide to looking after and making best use of the monies you earn in a very vulnerable, limited career. Don’t look back and wonder where it went, look forward to the future with a strong financial base.”

Gordon Taylor - Chief Executive, Professional Footballers Association

“Players need to consider life after sport – as individuals they can’t just leave such important planning until either time or injury forces them to face reality. “Your Financial Coach” provides an invaluable and easy to follow guide that should help ensure the next phase of your life is at least as successful as your sporting career.”

Jason Ratcliffe - Assistant CEO, Professional Cricketers' Association
